Guide to Child Safety Tips

HOME ALONE?

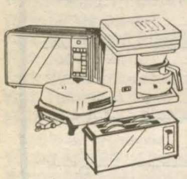
Usually you will be with an adult when you are at home. But sometimes when you are not in school, you may be alone because your parents are at work or have to be away. Self care is a big job, but you ll learn many ways to make it easy by understanding the following information.

WHAT IS A CONTACT PERSON?

A contact person is an adult which could be a neighbor or a friend, that you and your parents trust to help you. Sometimes your parents will not be able to help you quickly. That s when you call your contact person. Your contact person needs to be an adult who lives near you and is home almost all the time.

APPLIANCES

Almost everything that plugs into the wall is an appliance: stoves, dishwashers, toasters, blenders, irons and microwave ovens. The best rule of thumb is STAY AWAY; they can be dangerous! Use them only if your mom and dad have said it s OK.



THE DOOR

Answering the door is a tricky thing to handle when you are home alone. This is something you will need to talk about with your parents. Have your parents help you make an Okay Guests List. When visitors at the door tell you who they are, check your Okay Guests List to see if they are allowed in your house when you are home alone.

EMERGENCIES

Know your name, address, phone number and what kind of emergency you are having. Keep calm and answer. What is an emergency? An emergency means that someone is in danger. Call 9-1-1 RIGHT AWAY.

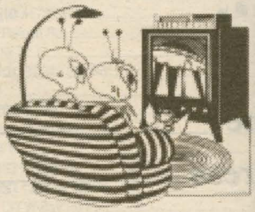
If there is a fire, LEAVE THE HOUSE FAST! If there are other people in the house, call out to them loudly as you crawl on your hands and knees to the closest way out. Feel the doors before you open them. If they are hot, go a different way. Call 9-1-1 from a neighbor s house. Do not go back to your house to get anything! To help your whole family be safe, have a family meeting to talk about fire escape routes.

YOUR KEY

Keep your key with you on a string around your neck or hooked onto you in some other safe way. KEEP YOUR KEY A SECRET, even from your friends. Nobody but your contact person needs to know that you are going to be home alone. How about extra keys? Your parents will want to give an extra key to each of your contact persons. Then if you lose your key, you can go to your contact person for help.

DON T BE SCARED!

Everyone gets scared sometimes. Noises can be scary, darkness can be scary, your mom and dad staying out longer than usual can be scary. If you are scared, check to be sure your doors and windows are locked. Turn on as many lights as you need. Call your parents or contact person. Turn on music or television to keep you company. Find something fun to do to keep busy.



THE TELEPHONE

The telephone is one of your friends when you are home alone. When you answer the telephone, simply say, Hello. Find out the name of the person calling. If you are asked if your mother or father is home, answer, They cannot come to the phone right now. Can you please call back later? DO NOT say you are home alone or that your parents are out. With your parents help, practice answering questions that you might be asked on the telephone.

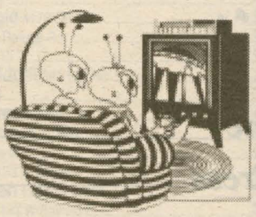
YOUR KEY

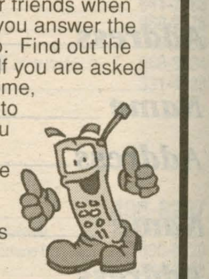
Keep your key with you on a string around your neck or hooked onto you in some other safe way. KEEP YOUR KEY A SECRET, even from your friends. Nobody but your contact person needs to know that you are going to be home alone. How about extra keys? Your parents will want to give an extra key to each of your contact persons. Then if you lose your key, you can go to your contact person for help.

DON T BE SCARED!



Everyone gets scared sometimes. Noises can be scary, darkness can be scary, your mom and dad staying out longer than usual can be scary. If you are scared, check to be sure your doors and windows are locked. Turn on as many lights as you need. Call your parents or contact person. Turn on music or television to keep you company. Find something fun to do to keep busy.

THE TELEPHONE



The telephone is one of your friends when you are home alone. When you answer the telephone, simply say, Hello. Find out the name of the person calling. If you are asked if your mother or father is home, answer, They cannot come to the phone right now. Can you please call back later? DO NOT say you are home alone or that your parents are out. With your parents help, practice answering questions that you might be asked on the telephone.

International Symbol of Access for the Handicapped

This universal symbol tells handicapped persons–especially those using wheelchairs–that a building or facility is accessible and can be entered without fear of architectural barriers.

Wherever the symbol is displayed, the handicapped can be assured that they will not be barred by thoughtless obstacles or prohibited from participating in the mainstream of society.

International Symbol of Access for the Handicapped

This universal symbol tells handicapped persons–especially those using wheelchairs–that a building or facility is accessible and can be entered without fear of architectural barriers.

Wherever the symbol is displayed, the handicapped can be assured that they will not be barred by thoughtless obstacles or prohibited from participating in the mainstream of society.

FREE EXPERT ADVICE ON YOUR INJURY CLAIM

"After Your Injury From Any Kind of Accident, Your Compensation Shouldn't Be The Hardest Part To Deal With"

If you've been injured in an accident that wasn't your fault, I know you're concerned about getting your medical bills paid . . . about whether your injuries will be fairly valued . . . about not hearing from anyone . . . and about being compensated for your pain.

Even though you may not know it, let me tell you up-front that **you have the right to be compensated for your medical expenses, lost wages, permanent injury, mental anguish, and for your pain and suffering.**

But to get it, there are certain things you need to know now! That's where I come in.

Callis L. Childs

Helping You Get Fair Compensation

My name is Callis Childs. And I'm a personal injury attorney who has helped recover millions of dollars for clients just like you as fair and just compensation for injuries they've suffered because of someone else's negligence.

Without hassles and frustrations on your part. Because we deal with all the issues for you.

In fact, I'm available 24 hours per day, and, I'll come to you if you're not able to come to my office.

3 Mistakes You Should Never Make

Accident insurance almost always pays for it, but all too many people injured in an accident make at least 1 of 3 common mistakes, which later come back to haunt them. Let me briefly tell you what they are . . . and how to avoid them.

1) The most common health mistake you could regret for years: not getting treated for your injuries, even if you don't think they're serious (such as whiplash). Without treatment you're going to be laid up longer than you need to be. And it makes any claim you file look fake if you wait.

2) Trying to take care of the injury claim yourself. The problem with your doing this yourself is that you do not know what to do to protect yourself. I can virtually promise you that if you try to handle it yourself, you'll be taken advantage of.

3) Not getting full money damages for your injuries. You may be due much more than you think, but an insurance company offer may not have your interests at heart. An attorney experienced in personal injury cases can get you more compensation in your pocket than you can get by yourself.

We Tell Secrets: Straight Answers To Your Legal Questions

There's a lot more I could discuss with you and would like to discuss with you, but that should really be done face-to-face. So I'd like to do something special for you . . . **absolutely free of charge and without further obligation.**

Simply, I'd like to buy you an hour of my time to give you a free case review, and to show you how I'll handle all the steps in your case to get you the damages settlement you're due.

When you come in I'll show you:

- ✔**How to get doctors to treat your injuries (and get your medical bills paid);**
- ✔The process we use to get your injuries fairly valued and to get you fairly compensated for your injuries;
- ✔**The importance of starting a case immediately to ensure the highest chance of success;**
- ✔How we'll obtain all the evidence to get you full and fair money damages;
- ✔**The six things we do for people that they don't expect to be done;**

For even more information, see my web-site at **www.arkansas-injury-lawyer.com.**

Get The Legal Help You Need

If your injuries are serious, then you owe it to yourself to call my office and set up an appointment for a **free case review** with me.

You can find out how we take the frustration and hassle out of getting your injuries treated and get you the fair and just compensation you deserve. **Call me today at**

YOU'VE JUST MISSED THE FIRST SIGN OF BREAST CANCER IF YOU DIDN'T SEE THE SMALL DOT IN THE UPPER LEFT HAND CORNER. Because it can start that small inside your breast. That's why a yearly mammogram is a must, especially if you're over 50. Doctors agree that the older you get, the higher the risk of breast cancer. But early detection increases your chance of successful treatment. While you may have missed the first sign of breast cancer, a mammogram won't. For more information, please call the American Cancer Society at **1-800-ACS-2345**.

International Symbol of Access for the Handicapped

This universal symbol tells handicapped persons–especially those using wheelchairs–that a building or facility is accessible and can be entered without fear of architectural barriers.

Wherever the symbol is displayed, the handicapped can be assured that they will not be barred by thoughtless obstacles or prohibited from participating in the mainstream of society.

International Symbol of Access for the Handicapped

This universal symbol tells handicapped persons–especially those using wheelchairs–that a building or facility is accessible and can be entered without fear of architectural barriers.

Wherever the symbol is displayed, the handicapped can be assured that they will not be barred by thoughtless obstacles or prohibited from participating in the mainstream of society.

International Symbol of Access for the Handicapped

This universal symbol tells handicapped persons–especially those using wheelchairs–that a building or facility is accessible and can be entered without fear of architectural barriers.

Wherever the symbol is displayed, the handicapped can be assured that they will not be barred by thoughtless obstacles or prohibited from participating in the mainstream of society.

ONLY YOU

Burn Debris Disaster Free

Smokey is counting on you to follow the rules for safely burning debris.
1. Check local laws on burning.
2. Don't burn on dry windy days.
3. Clear a 30-foot circle around debris before lighting fire.
4. Keep shovel, rake and water nearby.
5. Don't leave fire unattended by an adult, even for a minute.
6. Consider alternatives to burning:
composting, recycling, or hauling to a landfill.

REMEMBER, ONLY YOU CAN
PREVENT FOREST FIRES.

YOU'VE JUST MISSED THE FIRST SIGN OF BREAST CANCER IF YOU DIDN'T SEE THE SMALL DOT IN THE UPPER LEFT HAND CORNER. Because it can start that small inside your breast. That's why a yearly mammogram is a must, especially if you're over 50. Doctors agree that the older you get, the higher the risk of breast cancer. But early detection increases your chance of successful treatment. While you may have missed the first sign of breast cancer, a mammogram won't. For more information, please call the American Cancer Society at 1-800-ACS-2345.

International Symbol of Access for the Handicapped

This universal symbol tells handicapped persons–especially those using wheelchairs–that a building or facility is accessible and can be entered without fear of architectural barriers.

Wherever the symbol is displayed, the handicapped can be assured that they will not be barred by thoughtless obstacles or prohibited from participating in the mainstream of society.

This universal symbol tells handicapped persons–especially those using wheelchairs–that a building or facility is accessible and can be entered without fear of architectural barriers.

YOU'VE JUST MISSED THE FIRST SIGN OF BREAST CANCER IF YOU DIDN'T SEE THE SMALL DOT IN THE UPPER LEFT HAND CORNER. Because it can start that small inside your breast. That's why a yearly mammogram is a must, especially if you're over 50. Doctors agree that the older you get, the higher the risk of breast cancer. But early detection increases your chance of successful treatment. While you may have missed the first sign of breast cancer, a mammogram won't. For more information, please call the American Cancer Society at **1-800-ACS-2345**.

Guide to Child Safety Tips

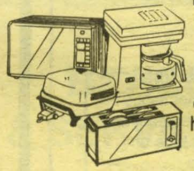
HOME ALONE?

Usually you will be with an adult when you are at home. But sometimes when you are not in school, you may be alone because your parents are at work or have to be away. Self care is a big job, but you ll learn many ways to make it easy by understanding the following information.

WHAT IS A CONTACT PERSON?

A contact person is an adult which could be a neighbor or a friend, that you and your parents trust to help you. Sometimes your parents will not be able to help you quickly. That s when you call your contact person. Your contact person needs to be an adult who lives near you and is home almost all the time.

APPLIANCES



Almost everything that plugs into the wall is an appliance: stoves, dishwashers, toasters, blenders, irons and microwave ovens. The best rule of thumb is STAY AWAY; they can be dangerous! Use them only if your mom and dad have said it s OK.

THE DOOR

Answering the door is a tricky thing to handle when you are home alone. This is something you will need to talk about with your parents. Have your parents help you make an Okay Guests List. When visitors at the door tell you who they are, check your Okay Guests List to see if they are allowed in your house when you are home alone.

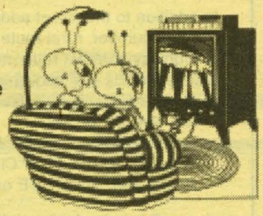
EMERGENCIES

Know your name, address, phone number and what kind of emergency you are having. Keep calm and answer. What is an emergency? An emergency means that someone is in danger. Call 9-1-1 RIGHT AWAY. If there is a fire, LEAVE THE HOUSE FAST! If there are other people in the house, call out to them loudly as you crawl on your hands and knees to the closest way out. Feel the doors before you open them. If they are hot, go a different way. Call 9-1-1 from a neighbor s house. Do not go back to your house to get anything! To help your whole family be safe, have a family meeting to talk about fire escape routes.

YOUR KEY

Keep your key with you on a string around your neck or hooked onto you in some other safe way. KEEP YOUR KEY A SECRET, even from your friends. Nobody but your contact person needs to know that you are going to be home alone. How about extra keys? Your parents will want to give an extra key to each of your contact persons. Then if you lose your key, you can go to your contact person for help.

DON T BE SCARED!



Everyone gets scared sometimes. Noises can be scary, darkness can be scary, your mom and dad staying out longer than usual can be scary. If you are scared, check to be sure your doors and windows are locked. Turn on as many lights as you need. Call your parents or contact person. Turn on music or television to keep you company. Find something fun to do to keep busy.

THE TELEPHONE

The telephone is one of your friends when you are home alone. When you answer the telephone, simply say, Hello. Find out the name of the person calling. If you are asked if your mother or father is home, answer, They cannot come to the phone right now. Can you please call back later? DO NOT say you are home alone or that your parents are out. With your parents help, practice answering questions that you might be asked on the telephone.
